Responsible management of environmentally sensitive materials has always been an important objective for the entire Print-Tech team. We are a Charter Member of the Michigan Great Printers Project, a member of the Washtenaw Waste Knot Program, and we have Chain of Custody Certification from the Forestry Stewardship Council (FSC). We offer a wide variety of recycled papers, use vegetable-based inks in all of our offset printing presses, and purchase low V.O.C. solvents. We also recycle everything possible including waste paper, cardboard, aluminum, inks, toner cartridges, and computer hardware.
